PROJECT:

ECOMMERCE

Multi-Vendor Website

COMPANY GOAL TO PROJECT

As per reference we mostly research the website and discuss it with my team. It was quite easy to take a decision after the project research. The functionality we found behind the research, we ultimately implement the features and functionality to our website. That would be great for the user experience. The user interface will be quite different from the present website. The Project Call “E-commerce Multi-Vendor Website“.
